

FISCAL NOTE

HB 2321 - SB 2631

February 5, 2004

SUMMARY OF BILL: Lowers the ACT/SAT scores that graduates from a Tennessee home school or a Tennessee high school that is not an eligible high school, must receive in order to qualify for Tennessee Education Lottery Scholarship to make these scores uniform with the respective scores that are required of eligible high school graduates. This bill would lower the required ACT score to 19 and the required SAT score to 890.

Under current law, to be eligible for a Tennessee HOPE scholarship, a student who completes high school in a Tennessee home school program or graduates from a high school located in Tennessee that is not an eligible high school, must attain a composite ACT score of at least 23 on any single ACT test date or a combined SAT score of at least 1060 on any single SAT test date.

ESTIMATED FISCAL IMPACT:

Other Fiscal Impact - Increases the expenditure of lottery funds earmarked for scholarships and grants by \$3,698,000 in FY04-05 and \$5,390,000 in FY05-06.

Estimate assumes:

- The bill would increase by 1,092 the number of first-time freshmen who would receive the \$3000 scholarship. This represents the number of 2004 graduates of high schools that are not eligible high schools who received an ACT score between 19 and 22 or an SAT score between 980 and 1060.
- In addition, an estimated 422 students with income under \$36,000 would be eligible to receive a \$1,000 need based supplemental award in FY04-05.
- An estimated 1,592 students (includes freshmen and sophomores) would be eligible to receive a \$3000 scholarship during FY05-06. This is based upon a projected scholarship retention of 46%. Of this number, an estimated 614 would likely be eligible for the \$1,000 need based supplemental award in FY05-06.
- Most of the increase in expenditures of lottery funds results from those students who graduate from non-accredited high schools and not from the addition of home school students. Since the number of home school students who graduate each year is relatively small, the original cost projections of the lottery scholarship program included home school students.
